I called Ms. Sandoval this evening. She's having one of her biologist and 2 game wardens fly up and assess the situation tomorrow. Without an RP, I would assume EPA would take the lead in contracting a wildlife rehabilitator. We then could/would get involved in helping wildlife capture and oversight of rehabilitation.

She said she would call me and the OSC in San Juan tomorrow with the assessment.

I'm not aware of a spill rehabber in NM, but can point you to a couple in Texas.

Standby,

Barry

Ron, Mark and Sam,

Our Department of Game and Fish needs help with wildlife (ducks, etc) covered in the yellow sludge. We don't have any resources for helping clean the animals. Does EPA have any resources that can assist? If so, can someone contact Alexa Sandoval, Director of Game and Fish. She is copied here. Her # is Personal Phone/Ex. 6

Thanks,

Ryan
